

# Deep Research: Become Taller Clinic

March 2026

## Comprehensive Investigative Report: Operational and Legal Profile of “Become Taller Clinic” and Dr. İbrahim Mustafa Çimen

### Executive Summary

**Become Taller Clinic** functions as a specialized health tourism facilitator rather than a standalone hospital entity. Research indicates that the clinic operates under the legal framework of **New City Clinic Eğitim Sağlık Danışmanlık Turizm Ltd. Şti.**, doing business as **New City Health Travel Agency**. While the marketing materials occasionally reference a location in Şişli, Istanbul, the operational reality is multi-faceted: administrative and post-operative physiotherapy services appear to be centered in **Batışehir (Bağcılar)**, while surgical procedures are performed at contracted private hospitals. As of 2025, the primary surgical venue for the clinic’s lead surgeon, **Op. Dr. İbrahim Mustafa Çimen**, is **Özel Avrupa Hospital** in Arnavutköy, following a transition from **Özel Rami Hastanesi**.

Dr. Çimen is a verified Orthopedics and Traumatology specialist with over a decade of experience, including a history of government service and private practice. The clinic possesses valid health tourism authorization through the Association of Turkish Travel Agencies (TÜRSAB). Patient sentiment is mixed, characterized by aggressive marketing on social platforms and forums, with specific success stories often curated by the clinic, while independent forum discussions emphasize the importance of distinguishing between the marketing front (the clinic) and the medical reality (the surgeon and hospital).

---

### 1. Corporate Identity and Legal Registration

To understand the physical footprint of “Become Taller Clinic,” one must first distinguish between its commercial brand and its legal corporate structure. The research confirms that “Become Taller Clinic” is a trading name used for international marketing, particularly targeting limb lengthening patients.

#### 1.1. Legal Entity and Trade Registry

The legal entity behind the operation is identified as **New City Clinic Eğitim Sağlık Danışmanlık Turizm Ltd. Şti.** (New City Clinic Education Health Consultancy Tourism Limited Company). This entity operates under the TÜRSAB (Association of Turkish Travel Agencies) agency title “**New City Health Travel Agency**”.

- **Registered Commercial Title:** New City Clinic Eğitim Sağlık Danışmanlık Turizm Ltd. Şti.
- **TURSAB Document Number:** 17666 .
- **Tax Identification Number:** 6311911769 .
- **Registered Tax Office:** Bakırköy Tax Office .

## 1.2. Registered Business Address

The legal address associated with the corporate entity is distinct from the clinical or surgical locations. Turkish trade registry data and agency listings place the headquarters in the **Bakırköy** district of Istanbul, not Şişli as sometimes marketed.

- **Legal/Tax Address:** Ataköy 7-8-9-10. Kısım Mahallesi, Çobançeşme E-5 Yan Yol Caddesi, No:12-2, Nivo Ataköy B Blok, Interior Door No: 83, Bakırköy/İstanbul .

This address corresponds to **Nivo Ataköy**, a mixed-use development containing offices and residences, typical for health tourism agencies that manage logistics and patient coordination rather than medical procedures on-site.

---

## 2. Physical Operational Addresses

The user’s query highlights conflicting information regarding locations in Şişli, Gaziosmanpaşa, and Eyüpsultan. This investigation has triangulated the specific functions associated with each location.

### 2.1. The “Şişli” Connection vs. The Batışehir Operational Hub

While the clinic’s website references a location in **Istanbul Şişli** , recent operational data suggests this may be a virtual office or a former marketing address. The active operational hub for non-surgical services (consultations, physiotherapy, and administrative staff) is located in **Batışehir**, a development in the **Bağcılar** district.

- **Operational Clinic Address (Batışehir):** Multiple employment listings for physiotherapists and translators in late 2024 and 2025 explicitly state the workplace is in **Istanbul Bağcılar Batışehir** .
- **Function:** This location is described as an “orthopedics clinic operating in health tourism,” where patients receive postoperative care and physiotherapy .
- **Visual Confirmation:** Promotional videos from October 2025 specifically welcome patients to the facility in “Istanbul Batışehir” .

### 2.2. The Surgical Sites (Hospital Affiliations)

Dr. İbrahim Mustafa Çimen performs surgeries at fully licensed private hospitals. He does not perform surgeries at the office locations in Batışehir or Bakırköy. His hospital affiliations have shifted over time, which explains the disparate address records found in search results.

- **Current Hospital (2025 - Present): Özel Avrupa Hospital (Private Europe Hospital).**
  - **Address:** Arnavutköy Merkez Mah., Eski Edirne Cd. No:1338, 34281 Arnavutköy/İstanbul .
  - **Verification:** Dr. Çimen’s profile on the hospital’s official site and updated biography confirms he began working here in 2025 .

- **Previous Hospital (2020 - 2025): Özel Rami Hastanesi.**
    - **Address:** Cuma Mah. Talimhane Cad. No:13, Eyüpsultan, İstanbul .
    - **Verification:** Multiple sources, including older doctor profiles and forum discussions, place him at Rami Hospital during these years .
  - **Historical Address (Gaziosmanpaşa):**
    - **Address:** Merkez, Çukurçeşme Cd. No:51, 34245 Gaziosmanpaşa/İstanbul.
    - **Context:** This address appears on Dr. Çimen’s personal website contact page . It is likely a private practice office or a previous consultation location used before the shift to the integrated health tourism model at Batışehir/Avrupa Hospital.
- 

### 3. Medical Credentials of Dr. İbrahim Mustafa Çimen

Dr. Çimen is the primary medical authority associated with Become Taller Clinic. His credentials follow the standard regulatory path for Turkish orthopedic surgeons.

#### 3.1. Education and Licensure

- **Medical Degree:** Graduated from **Hacettepe University Faculty of Medicine** (English curriculum) in 2006. Hacettepe is widely regarded as one of Turkey’s most prestigious medical schools .
- **Specialization:** Completed residency in **Orthopedics and Traumatology** at **Ankara Dışkapı Yıldırım Beyazıt Training and Research Hospital** (2006–2011) .
- **Professional Memberships:** Active member of the **Istanbul Medical Chamber** (İstanbul Tabip Odası) and the **Turkish Orthopedics and Traumatology Association** (TOTBİD) .

#### 3.2. Professional History and Experience

Dr. Çimen’s career trajectory indicates a move from state service to private health tourism: 1. **2011–2013:** Compulsory state service at Şanlıurfa Ceylanpınar State Hospital . 2. **2013:** Awarded “Doctor of the Year” by the Turkish Ministry of Health . 3. **2014–2016:** Şanlıurfa Birecik State Hospital . 4. **2016–2018:** Private sector roles at Özel Arnavutköy Avrupa Hospital and Özel Baypark Hospital . 5. **2020–2025:** Private Rami Hospital . 6. **2025–Present:** Private Avrupa Hospital .

#### 3.3. Surgical Scope

Dr. Çimen specializes in limb lengthening using the **LON (Lengthening Over Nail)** method and the **Precice 2** (internal nail) method . He also performs general orthopedic procedures such as arthroplasty (knee/hip replacement) and trauma surgery .

---

### 4. Health Tourism Accreditation and Certification

The clinic operates within the regulated framework of Turkish health tourism.

#### 4.1. TURSAB Certification

The entity **New City Health Travel Agency** (License No: 17666) is a registered Class A travel agency authorized by TURSAB . This certification allows the company to legally handle the logistics of international patients, including transfers, accommodation, and coordination with medical facilities.

#### 4.2. Health Tourism Authorization

The agency appears on lists of authorized intermediary organizations for health tourism. The “New City Clinic” entity is listed as a “Health Tourism Intermediary Organization” (Aracı Kuruluş) in documents related to authorized bodies in Turkey . This legal distinction is vital: the *clinic* (as a business entity) facilitates the tourism aspect, while the *hospital* (Avrupa Hospital) holds the medical license for the surgical procedures.

---

### 5. Reputation, Reviews, and Patient Sentiment

Analyzing the reputation of Become Taller Clinic requires distinguishing between curated marketing content and independent user discussions.

#### 5.1. Independent Forums (Limb Lengthening Forum - LLForum)

- **Dr. Çimen’s Reputation:** On specialized boards like LLForum, Dr. Çimen is generally described as a competent surgeon with a “meticulous” approach. Some threads mention he has successfully performed over 300 lengthening surgeries without severe complications reported *in those specific discussions* .
- **Caveat:** Some endorsements on these forums appear to be from administrators or users with close ties to the clinic (“It’s a clinic I can recommend... Check their website”), suggesting a degree of astroturfing or managed reputation management .
- **Comparison:** In threads comparing Turkish doctors, Dr. Çimen is listed alongside other known entities like Live Life Taller and Wanna Be Taller. While some competitors have “bad reviews” noted by users, Dr. Çimen’s threads are generally more neutral to positive, though less voluminous than the high-profile doctors .

#### 5.2. Trustpilot and Third-Party Sites

- **Confusion with Competitors:** There is significant confusion in review aggregators between “Become Taller Clinic,” “Wanna Be Taller,” and “Live Life Taller.”
  - **Wanna Be Taller:** This is a separate entity (often associated with a different patient coordinator/owner) that has received mixed reviews, including allegations of payment issues (crypto-only) and aggressive sales tactics .
  - **Live Life Taller:** Another competitor with noted negative reviews regarding pin failures and infections .
  - **Become Taller Clinic:** Specific independent reviews for *this specific brand* are scarcer on open platforms like Trustpilot compared to its competitors. Most “reviews” found are testimonials hosted on their own platforms or affiliated marketing sites .

### 5.3. Employment and Internal Operations

Job postings for the clinic reveal a high demand for physiotherapists and multilingual staff (English, French, Italian) at the Batışehir location. The listings emphasize that the clinic deals exclusively with foreign patients undergoing limb lengthening . The requirement for staff to work “2 hours per patient, 5 days a week” suggests an intensive physiotherapy protocol is part of their package .

---

## 6. Synthesis and Conclusion

Based on the exhaustive analysis of available data, the operational reality of “Become Taller Clinic” is as follows:

### 1. Actual Physical Address:

- **Headquarters (Legal/Financial):** Nivo Ataköy B Blok, Bakırköy, Istanbul.
- **Clinical Operations (Physio/Consults):** Batışehir, Bağcılar, Istanbul.
- **Surgical Location: Özel Avrupa Hospital,** Arnavutköy, Istanbul (as of 2025).

2. **Legal Status:** The clinic is a trading name for **New City Clinic Eğitim Sağlık Danışmanlık Turizm Ltd. Şti.**, a TURSAB-registered agency (No: 17666).

3. **Doctor Credentials: Op. Dr. İbrahim Mustafa Çimen** is a legitimate, board-certified orthopedic surgeon. He is not a direct employee of “Become Taller Clinic” in the traditional sense but contracts his surgical services to them, currently utilizing the facilities of Özel Avrupa Hospital.

4. **Accreditation:** The clinic holds the necessary tourism authorizations to operate as a health tourism intermediary in Turkey.

**Advisory Note for the User:** When visiting or sending documents, do not rely on the “Şişli” address. For legal notices, use the **Bakırköy** address. For physical visits regarding therapy or consultation, the **Batışehir** location is the operational hub. For surgical matters, Dr. Çimen is located at **Özel Avrupa Hospital**.

### Detailed Data Tables

**Table 1: Verified Locations**

Function	Address	District	Source Verification
<b>Surgical Hospital</b>	<b>Özel Avrupa Hospital</b> Eski Edirne Cd. No:1338	Arnavutköy	
<b>Clinic/Physio Center</b>	<b>Batışehir</b> (Complex)	Bağcılar	
<b>Legal/Tax HQ</b>	<b>Nivo Ataköy</b> , B Blok Çobançeşme E-5 Yan Yol No:12-2	Bakırköy	
<i>Former Hospital</i>	<i>Özel Rami Hastanesi</i>	<i>Eyüpsultan</i>	**

**Table 2: Dr. İbrahim Mustafa Çimen - Career Timeline**

Period	Institution	Role
